Re: Metal Valves Price Increase

Due to increasing costs, NIBCO is announcing a price adjustment on selected pressure-rated valves. These price increases will reflect an average of 5% (divide current lists by .95) on iron, carbon steel and stainless steel valves and 7% (divide current lists by .93) on brass and bronze valves. Some select SKU's may be adjusted to reflect various higher or lower increases. Current base multipliers remain unchanged. The following price sheets will be effective November 2, 2009:

- BIDV-1109 pressure-rated bronze, iron and ductile iron valves
- CBV-1109 commercial bronze ball valves
- INDBV-1109 industrial carbon and stainless steel ball valves
- BFV-1109 commercial and industrial butterfly valves
- HPBFV-1109 high performance butterfly valves
- FPP-1109 fire protection valves
- BVPL-1109 circuit balancing valves
- IRR-1109 irrigation valves
- PSP-1109 plumbing specialty products

The new list price sheets will be available the week of October 19, 2009 via NIBCO's websites at www.nibco.com and www.nibcopartner.com. You will have the option of printing a copy of the price sheet in PDF format or downloading list prices in MS Excel format.

If you have questions, please contact your NIBCO sales or customer service representative. Thank you for your continued support of NIBCO products.
